
Linux Hacker Wanted

If you enjoy working on open source software, Open Systems Solutions would like to have a word with you.

Dependable self-starters are sought for an opportunity to work with the Central Systems and Services group in Rutgers University's Office of Information Technology.

- Willingness to work in a *NIX-friendly environment.
- *NIX experience a must
 - *NIX sysadmin experience a BIG plus
 - (Linux skills desired, Solaris doesn't hurt)
- Programming ability a must (at least one of the below)
 - Scripting skills (Python, Perl, etc)
 - Systems languages (C, C++, etc)
 - Shell scripting (*sh, etc)
 - Web skills desirable (CSS, Javascript, HTML, etc)
 - Java does not impress us
- Packaging experience (rpm) is helpful, but not required
- Database experience very beneficial
- 12-20 hours/week during the semester and 20-30 hours/week during the summer
- Ability to lift 50 lbs.
- People who will be around Rutgers for the next two years preferred

Pay is based on experience and ability.

Flexible hours · Training provided · Convenient on-campus location

Access to the official CSS candy drawer

For more information, please send a plain text or PDF copy of your resume with two references to: oss@oss.rutgers.edu

Resumes sent in any other format besides plain text or PDF will be discarded.
Anything resembling .doc will be laughed at and shredded.

If you made it this far and you have the aforementioned skill set, send us your resume.
